

As part of their Design Technology and History learning, Year 2 have been designing and making their Great Fire of London houses. They are using different materials whilst working out the best way to join these together. Just look at the concentration on their faces!

Message from Mrs Stout

Our newsletter is so busy this week that I have had to move to this side of the page to fit all of our amazing photos in! What a busy week—what a brilliant week! Y6 worked their SOCKS off and tried their very best with their SATs tests and we are SO proud of them. Reception went to Blackpool and had a fantastic time—and were keen to tell me all about it when they got back (at 6pm!! Delayed due to traffic but they were amazing!) It makes me so proud of our wonderful school! Enjoy the newsletter and your weekend!

Nursery

This week we've been learning about the different parts of plants and flowers and have planted our own sunflowers!

Eid Mubarak!
Early Education have had a great time celebrating Eid with all their friends. Lots of crafts, malleable play and dancing to Middle Eastern music.

Our Y3s had a busy time at their recent visit to the Chocolate Story in York; this was part of their English learning because they are reading '*Charlie and the Chocolate Factory*.'

Personal Development at Meadowfield

It is really important to us that we show our children how they can make a positive impact on the people around them and, in fact, the whole world! Our plastic awareness work continues—take a look at our scheme to recycle toothbrushes:

We have, with Mrs Ulliyart's valued support, recycled over 12 kilos of brushes and empty toothpaste tubes. Wow—that is a HUGE achievement. Well done Green Team.

Looking after the whole child is crucial to us as well—ensuring children are fluent readers, good mathematicians and able to make healthy choices is all part of the everyday here. Our toothbrushing forms part of that.

Spanish for this week!

Months of the year—which month is your birthday in?
Mine is diciembre.

As part of our Y3 Religious Education learning we were lucky enough to have a visit from Abdur Rahman who came to speak to the children about Eid, Ramadan and Islam. The children really enjoyed themselves had lots of questions.
