

Meadowfield News

20th January 2023

Message from Mrs Stout

Our newsletter this week is full of such a variety of learning and experiences! We work hard to help our children develop their own characters by focussing on our school values— self worth, resilience, ambition and communication. I think each one of our values can be seen in our newsletter today giving you just a snapshot of what it is like everyday here at school. It is a brilliant place where our team work so hard to create worthwhile learning opportunities for our children. I think you will enjoy seeing the many things which have kept us so busy!

Meadowfield retains their Gold Start from NHS for tooth brushing excellence!

A massive well done to our whole school and especially Mrs Ulliyart and 5BR for enabling Meadowfield to retain its Gold Standard in oral hygiene once more. This is not an easy achievement and the planning and organisation around an entire school safely brushing their teeth once a day every day in school time is challenging. But we have done it and here is our certificate—sparkly smiles all round here at Meadowfield!

BFI Gold standard awarded 2018
BFI Gold re-awarded 2019

Leeds Community
Healthcare
NHS Trust

0-19 Public Health Integrated Nursing Service

Meadowfield Primary School

Have been awarded a

Gold Star

For successfully achieving the National Standards for the
Tooth Brushing Scheme in January 2023.

Spanish Days of the Week

A sad message from Mrs Uzma Tayyab in Early Education

Dear Parents and Carers

I have known Meadowfield for over 15 years now and it has been amazing to see us become so diverse as a school and a community. You should all be very proud. Some of you I have known since I first started working here, and it has been great to see you and your families develop and grow.

After all this time, I have decided to leave Meadowfield. It has been a pleasure working here, with all of you and your children. My last working day will be Friday the 27th Jan. Good luck to you all and thank you for being a part of my journey.

Uzma.

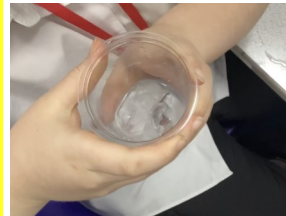

We are so sad to see Uzma leave us but know she is moving to another position working with families and younger children where she will make a huge difference—we will miss you so much Uzma—good luck in your future career!

Year 4 scientists in action!

Year 4 have been investigating if we can change the state of an item. We had ice, butter and chocolate all in their solid state. We found that if we heated them using our hands, breath and hairdryers then we could change them into a liquid state. It was very messy but great fun too!

Reading is one of the things we enjoy most at Meadowfield—we read to learn, to research, to investigate but most of all we read to enjoy ourselves. It starts right from Early Education and here in Nursery you can see our children enjoying a range of books and getting so much fun out of sharing this with each other!
